DIRECTIONS FOR USE

These essences are very potent., so here are some suggestions for introducing yourself to them. As always use your own intuition and check in what works best for you. There are no rules.

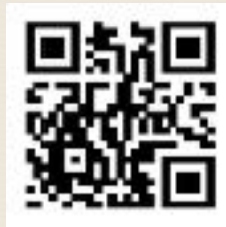

You may wish to start by just having them in the room so you acclimatise to the energies or place a couple of drops on your crown or wrist to introduce the essence to your body.

Use your intuition to determine how many drops to take orally and how often. You may only need one drop. Tap the bottom of the bottle about 5-6 times to re-activate the vibrational potency, before taking.

You may wish to use them only externally. Trust your knowing.
